1. The Steps Above

MCQ

Description

STEP 1: Register with WIGLE and download map packs of your area to view the plotted access points on a geographic map.

STEP 2: Connect the antenna, GPS device to the laptop via a USB serial adapter, and board a car.

STEP 3: Install and launch NetStumbler and WIGLE client software and turn on the GPS device speeds.

STEP 4: Drive the car at speeds of 35 mph or below (At higher, Wi-Fi antenna will not be able to detect Wi-Fi spots).

STEP 5: Capture and save the NetStumbler log files that contain GPS coordinates of the access points.

STEP 6: Upload this log file to WIGLE, which will then automatically plot the points onto a map.

What is the purpose of doing the steps above?

Answer

Please choose a correct answer.

UNSOLVED

Cracking Password
